TOWN OF POLAND

Appraisal Report

1963

TOWN OF POLAND, MAINE

ASSESSORS' OFFICE

To the owner of taxable property in the Town of Poland.

During the past year an appraisal has been made of your property and all other properties in Poland in order to recognize present day values and in so doing equalize real estate assessments among taxpayers.

The new valuation has been completed through the efforts of a professional national organization, The Cole-Layer-Trumble Appraisal Company of Dayton, Ohio, and supervised by this office and in accordance with the laws of the State of Maine.

First, tax maps were prepared by the James W. Sewall Co. through the use of aerial photographs of the town. Crews, working from deeds and actual cruise of lines, drew all lot lines on the face of the photographs. These lines were later transferred to tracing cloths from which conventional maps were prepared. Each parcel of land has been identified by number so that we are now able to define any land area in town.

Every piece of property has been visited and where the occupant was home and entrance permitted, inspected on the inside. The appraisers recorded basic facts on a record card which has become a permanent part of Poland assessment records. These visits have included the appraisals of both land and buildings. These records are quite detailed and complete. The values arrived at give assurance that you are now paying taxes on an equalized basis.

The only way you as a taxpayer may intelligently test the new valuation is not what you paid for the property one year ago, five years ago or even twenty years ago but rather its value in today's market. You must therefore ask yourself this question: "What will my property sell for within a reasonable period of time in today's market"?

If you are certain and can prove our assessment is in excess of a fair sale price, then it may be assumed that you have some basis for appeal.

We estimate the 1963 Tax Rate will be .021 mills. You will note this rate is lower than last year simply because the total valuation of the Town has gone up which pushes the rate down. Remember, too, with or without this revaluation your taxes will automatically be 9% higher because of increased appropriations by the Town this year over last year.

Equalization is of prime importance and we have tried to reach this goal. As a result of this effort some people will pay less taxes and some will pay more taxes, but in the end we hope no one will pay more than his fair share. Reason-

able people will accept such adjustments as being fair and proper. We trust you will be included in this group.

However, if you feel you have a basis for appeal, or if your property was not examined on the interior, please telephone the Town Offices to make arrangements for a hearing with the assessors and the Appraisal Company representative. You must do this on or before August 3, 12:00 noon, 1963, as hearings will be conducted by appointment only on August 12 & 13, 1963 between the hours of 9:00 a.m., to 12:00 noon and 1:00 p.m., to 6:00 p.m.

Sincerely yours,

ASSESSORS
Philip E. Dunn, Chairman
Howard A. Bamford
George F. Murch
